FOR IMMEDIATE RELEASE, PLEASE

REDUCE RISK OF IMMIGRATION VIOLATIONS WITH CSI'S NEW AUDIT COMPLIANCE SERVICE

(Mansfield, MA) – Is increased ICE scrutiny of employer I-9 compliance giving your company a chill?

Creative Services Inc., an international leader in enhancing workplace safety and security with high quality pre-employment screenings, background investigations, and security consulting, is helping businesses reduce their risk of liability from I-9 non-compliance with a new Audit Compliance Service (ACS).

ACS protects your company against damaging penalties by evaluating and improving your existing I-9 employment eligibility verification program. First, ACS reviews your I-9 process, identifies potential areas of vulnerability, and recommends steps to reduce risk and increase compliance. In addition, ACS uses cutting edge technology to validate the authenticity of employee identification documents. Finally, ACS helps your company avoid future problems by training your staff in I-9 compliance.

The need for ACS is clear. Since 2009, the investigative arm of the Department of Homeland Security, the US Immigration and Customs Enforcement (ICE), has performed I-9 inspections on nearly 1,700 businesses; another 180 Notices of Inspection were issued in March 2010. Of the 61 Notices of Intent to Fine (NIFs) issued since July 2010, more than \$2.3 million in fines have resulted. ICE's surging emphasis on enforcement sends a strong message to employers about the importance of maintaining accurate employment eligibility verification records.

Don't let inadequate oversight of your employees' I-9 documentation put your company at risk for steep fines or damaging publicity. Contact Heidi Raffanello, Director of Government Services, at 508.339.5451, ex.248, or

hraffanello@creativeservices.com to learn how CSI's new Audit Compliance Service (ACS) can secure your workforce and your reputation.
